The Constance wall mounted ceramic basin is a compact and minimalist piece with a modern edge. Its edginess is showcased by the exposed pipes below that give this basin a contemporary element. The wall mounted nature of the Constance allows it to fit endearingly into smaller spaces such as powder rooms, ensuites and restrooms.

TIP: Why not create a his and hers washroom by mounting a set side by side with a space between? This would create a modern take on the his and hers style.
