The Lorna Semi-Frameless shower screen provides a sleek frameless door with a durable aluminium frame to support the enclosure. The Lorna shower screen is universal in regards to installation, it is possible to have the door open on the left or right, please see the diagram in the image gallery to view the different installation options. Another wonderful benefit of the streamlined frame shower screen is that while offering a modern appeal it is also easier to clean than a completely framed screen, with fewer nooks and crannies for mould and soap scum to build as it is fully framed. The 6mm toughened glass offers a clean finish that completes any bathroom style.

Additionally, your shower experience just became incredibly easier with this nano coated shower screen. This technology is specifically engineered to self-clean. Its coating creates a bond that is long lasting and does wonders to your cleaning and overall shower experience as it not only repels water but prevents the build up of soap scum, dirt and more! The Nano coating will last for 3-5 years depending on usage. For more information click [here](#)

Shower base and other fittings shown in the photos are for illustration purposes only and are sold separately, add them to your order to complete your look.

***This screen is designed smaller to allow for a variety of finishes & to fit into appropriate shower base. Please ensure that your installer takes into consideration checkout, sheeting, tile thickness, glue etc to ensure a compatible fit with your selected finishes & base.*
