The Lorna Frame shower screen provides a sleek frameless door with a durable frame to support the enclosure. Another wonderful benefit of the Lorna frame shower screen is that while offering a modern appeal it is also easier to clean than a completely framed screen, with fewer nooks and crannies for mould and soap scum to build as it is fully framed. The 6mm toughened glass offers a clean finish that completes any bathroom style. This shower screen allows for the width to be adjustable, which makes this easy to install in the most difficult cases. The actual installed size of this product is 1000x1000x1900mm typically used for installation without a shower base (instead of a smaller shower screen to fit a 1000x1000 base).

Shower fittings shown in the photos are for illustration purposes only and are sold separately, add them to your order to complete your look.
