The in-wall or concealed cistern Baltimore suite is the most premium in the Baltimore range, and will result in the most superior high-end look once installed. The hidden flush creates an uncluttered, hotel like luxury that can also make the space feel bigger. The in wall cistern is available in various button options to perfectly match with the rest of your bathroom design.

Featuring a streamlined design, gloss white finish and a pan that is floor standing. At the convenience and simplicity of no rim, the rimless toilet makes for a significantly easier clean inside the pan. With a direct flush technique, the flush washes the entire pan more efficiently stopping the build-up of grime, bacteria and limescale that would be found in toilets with a rim. The concealed cistern means there is no space behind the pan or around the cistern for dust and grime to accumulate, making cleaning the exterior of the toilet a lot easier.

P Trap - 180mm

S Trap - 90-150mm P to S Trap converter (included)
