The Chloe sink features a modern shape that is elegant and timeless. This sink would be ideal for the use in kitchens, laundries, bars & BBQ areas.

This quality construction sink is made using thick stainless steel to provide durability. The curved shape allows for easy cleaning and function. Featuring silencing pads around the outside of the sink, you can benefit from the reduction in noise from water and utensils. The special anti-condensation coating covers the silencing pad and outer surface of the sink, protecting your cabinet from sweating, potential damage or smells caused by condensed water, and as a bonus also helps with sound deadening.
