

## Benchtop Hole Cutting Service

SKU#: BT-200X

From **\$1.00**

### TAP CUTS

### WASTE CUTS

### VANITY CONFIGURATION

Tap hole Diameter: 35mm  
Waste hole Diameter: 80-100mm  
Configuration: Waste & Tap Holes  
Customisation: Via Template

Enhance your installation efficiency with pre-drilled tap and waste holes for your vanity benchtop. To add waste and tap holes to your benchtop before it leaves our warehouse, simply select your preferred options when placing your order. Choose between a waste hole only or both waste and tap holes from the drop-down menu.

### Why Pre-Drilled Holes?

Our standard benchtops are not pre-drilled, this allows for greater customisation to fit your specific needs. However, keep in mind that if you opt for the standard configuration, your installer will need to drill the holes on-site. By choosing our pre-drilling service, you can avoid the hassle and ensure precise hole placements.

Once you add this service to your order, we will send you a "Benchtop Hole Cutting Template" where you can specify the exact locations for the holes. Just provide your requirements, and we'll handle the rest.

### Need Assistance?

Contact us today if you have any questions about your stone top hole placements.

*\*This service is exclusively available with Fontaine's benchtop products only (purchased separately). If your benchtop is in stock, the lead time for this service is 5 business days, please add an additional 5 business days to the estimated arrival date (ETA) for out of stock products. We will provide general recommendations for standard tap hole and waste positions to ensure compatibility with your vanity. Custom positions can be accommodated; however, please be aware that the buyer will be responsible for any discrepancies, as Fontaine cannot be held liable for issues arising from custom placements. A template will be provided for your approval before we proceed with the hole cutting process. Once approved, the cutting positions will be final. This service is classified as a special order, Fontaine cannot accept returns or refunds for any benchtop services or products once the templates have been approved and signed off.*
