This recessed 600mm round mirror cabinet is modern and contemporary, designed to suit all bathrooms. With a thin cabinet profile, this unit is perfect for achieving a seamless and completely recessed appearance that is sleek and modern. This unique construction means the cabinet and door is big yet the mirror join is out of the way and perfect for a clear unobstructed view when using the mirror.

INSTALLATION NOTICE: This mirror cabinet cannot be installed semi-recessed unless otherwise discussed with your builder. This mirror cabinet door is made of two separate mirrored components, the main component is a hinged door to access the cabinet and the smaller mirror component is decorative. This mirror cabinet is designed to be installed completely recessed so that the two components of the mirror are flush and create the round mirror shape. Please discuss the suitability of this product with your builder before purchasing.
