\$13.30

~~\$19.00~~

Size: 25 x 14 x 2400mm

Construction: PVC

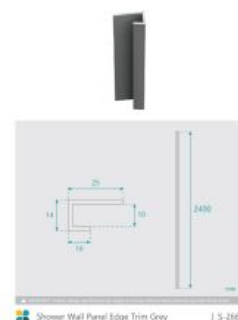

Colour: Grey

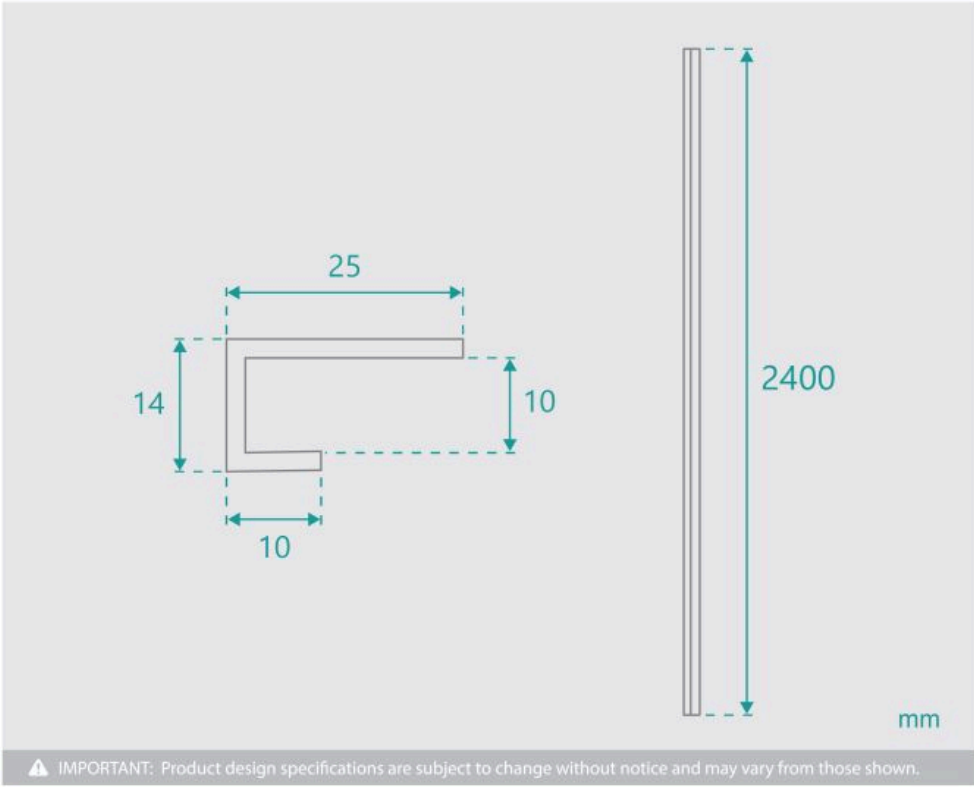

Installation: To Fit Waterproof Wall Panels

Warranty: 5 Year Product Warranty

The Wall Panel Edge Trims are created to finish off the span of waterproof wall panels in a professional way, similar to a tile trim function. They assist with water sealing the exposed sides and top of the wall panels to ensure moisture is not entering the panel structure, whilst also giving the installation a nice, polished look. The trims can be used in conjunction with waterproof shower wall panels to create a full wall of protective lining for your shower and bathroom. Simple and flexible to install, these grey trims can be paired with the shower wall panels in a 1000mm size. They can be easily cut to size to suit your installation requirements.

A full wall of shower panels makes it easier to clean and maintain than a traditional tile wall. Cleaning becomes a breeze with no grout lines that can catch soap residue or chip away in time.
