Add style and functionality to your desired wet room area with our Silver Cloud waterproof wall panels. These shower panels are easy to install, making it an efficient way to enhance your bathroom without the hard work required for tiling and grout. These decorative wall panels in a marble design can be installed over old tiles, saving you time and money on your projects with tight deadlines and budgets.

These waterproof panels can be installed side by side to create a full wall solution, using a specialised 'tongue and groove system' these panels will make a watertight covering that is a simple to install. After installation, you will discover these waterproof wall panels are easy to clean and maintain due to being resistant to mould, mildew, dents and cracks. In addition, our shower wall panels provide a premium and unique look that are sure to make a statement, choose from our wide range of feature finishes to personalise your bathroom space into a modern retreat for a portion of the price.

To install the patterned wall liners, additional panels will click together, so you will need to measure up the required amount of panels. To finish off the span you will need to install the edge trim and you may also utilise a corner trim depending on your application.

For perfect coverage and a secure finish every time, see the recommended adhesive cartridge amounts for each wall panel size below;
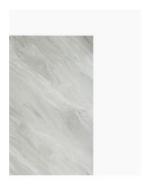

Panel Length (mm)	Panel Height (mm)	Recommended Cartridges
900–1000	2200–2500	1
1200	2200–2500	2
