Our waterproof shower wall panels in a modern herringbone pattern will bring functionality and style to your bathroom shower space. The PVC shower panels are easy to install, making a quick and effective way to revamp your bathroom without the hard work required for tiling and grout. These decorative wall panels are cost effective option to traditional wall tiles and can be installed over old tiles, saving you time on projects with tight deadlines and budgets.

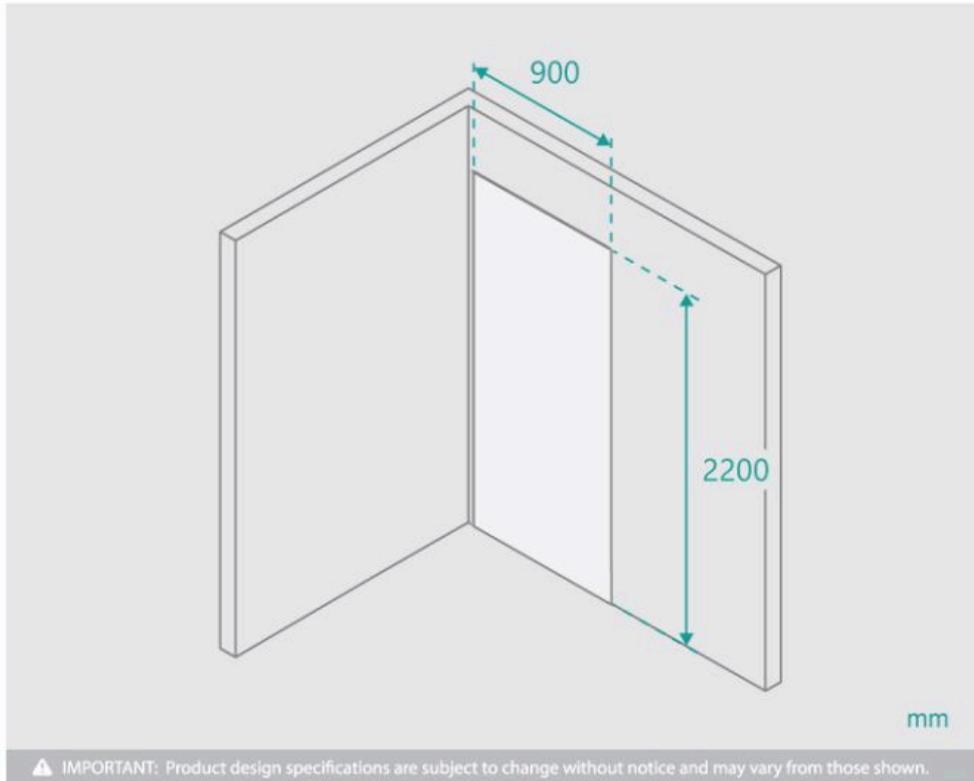

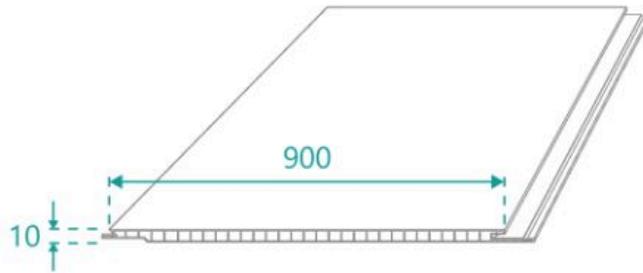

These panels can be installed side by side to create a full wall solution, using a specialised 'tongue and groove system' and our connector trims, these panels will make a watertight covering that is a breeze to install. When installed, our shower wall panels provide premium and unique looks that are sure to make a statement, choose from our organic range of decorative finishes to customise your bathroom space into a modern retreat for a fraction of the cost. The shower panels are durable and easy to maintain, they are resistant to mould, mildew, dents and cracks, cleaning becomes a breeze with no grout lines that can catch soap residue or chip away in time. When installing the shower wall panels, it is recommended to use [Soudal Fast grab](#) - apply one cartridge per 900mm panel and two cartridges per 1200mm panel.

View our store to find a shower screen, shower head, or tap for your bathroom and save on combined delivery.
